

Training Dogs Online

Where every dog should begin, in order to succeed!

Welcome to TDO!

This program was created to help dog owners learn everything they need to create a happy, resilient and obedient dog.

Most clients assume that you need a professional dog trainer physically in your home in order to learn how to train your dog. What if we told you that you really don't, in fact, you will not only have more success training your own dog, but you will build an even better relationship with them than you ever thought possible.

We have combined all of our dog training secrets and put them together within this course. The course will take you through week by week exercises and protocols designed to help you train your dog with ease. There's also no need to worry, we will be there with you every step of the way analyzing your video submissions, answering your questions and we even offer weekly Zoom calls in case you need a little extra guidance. The support you receive through the community we have created will help give you confidence, keep you on track and feel supported through your ups and downs.

1

MOTIVATION

We believe in using our dogs daily rations of food as a motivator. A motivated dog is happier and easier to train. Treats come and go, but real motivation is forever.

2

ENGAGEMENT

Teaching dogs the importance of focus, work ethic and how rewarding it is to remain engaged and listen.

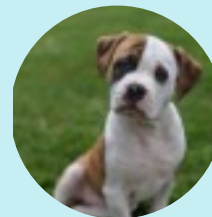

3

MARKER TRAINING

Using a consistent language, we can mark behaviours we like and behaviours we don't like. This allows us the opportunity to "talk" to our dogs and have them understand

FOUNDERS

Melissa De Decker of The Dog's Paw and Cher Wood of Street Wise Canine. Combined we have over 20 years of experience training dogs.

THE COST

\$300.00 CAD plus HST.

WHAT YOU NEED

The course is operated via a private Facebook group and Zoom.

DISCOUNTS

We offer breeder and rescue discounts.

What You Will Learn

We believe that having a solid foundation of obedience is the key to not only preventing behaviour issues but resolving them as well.

The program will cover the following ;

- Our one of a kind Marker Training Language.
- Polite greetings (calm, confident, no jumping).
- Puppy basic (crate training, mouthing, house breaking, name recognition, chewing).
- Polite leash walking (no pulling)
- Focus on handler
- Basic Obedience (sit, down, place, recall, out, leave it)
- Behaviour Modification; how to understand and begin resolving unwanted behaviours.
- Mat Training (how to capture and reward relaxation)

“A virtual learning experience, not only with great feedback from trainers but support for each other through an online community”

*** Plus These Bonuses ***

- **Accepting necessary handling**
 - **Preventing resource guarding**
 - **How to play tug with your dog**
 - **Exclusive content, tips & tricks**
-

WHAT CLIENTS ARE SAYING

"This course is amazing. The expertise and information that Cher and Melissa are providing is beyond anything I could have hoped for in an obedience class. And it is more than an obedience class, it's learning how to develop a strong, clear relationship with your dog. Their responsiveness, kindness and approach to providing all the information we need is astounding. I can't say enough great things about this course, I am recommending it to everyone I know who has a dog whether it's a puppy or an adult."

"Better than the 'real thing'. Training on your own home territory with better support + a community of folks training their dogs in tandem. It's legit group learning and we would have been lost without the guidance"
