

November, 2017

It's Happy Tails Friday and today we bring you Shelby. Mom Cindy fell in love with a heartworm positive dog and knew she had to adopt her. FoHCAS was more than happy to help Shelby begin her new life with Cindy, heartworm free.

Cindy's message to us was short and sweet but expressed perfectly her adoration for her sweet new pup. Cindy wrote:

"The reason I fell in love with Shelby was her loving demeanor and those gentle eyes. She just gave me that look that said: Will you love me and take me home even though I have heartworm? And my heart just melted. She is a very sweet and loving dog and has taken her place in my family. ❤️❤️"

We are so thankful to people like Cindy who adopt dogs with heartworms and other medical issues. Our appreciation is given with help from our village, by helping these dogs get treatment so they can be adopted and live healthy lives in their new homes.

Congratulations to Cindy and Shelby. We look forward to more updates as Shelby goes through her treatments.
