

## HOW TO GET INSURANCE CLAIM REIMBURSEMENT

Contact your insurance company for instructions on reimbursement of your bras, since every plan can be different. We recommend getting a prescription from your doctor for the mastectomy bras. After you purchase the bras, we will give you an itemized receipt. Your insurance company should have a downloadable form for you to fill out and attach script/receipt for reimbursement. Many times it will be a quick online submission. When calling your insurance company, please let them know we are a manufacturing supplier of mastectomy bras, and not in network with any carriers (with our receipt/script and a claim form your bras should be covered as a DME item). Please contact us for any additional questions and we look forward to help you find your perfect PinkLift bras!
