8/7/2020

#### **To whom it may concern:**

This is very difficult time to all Ethiopian people because of the current political turmoil on top of corona virus epidemic. Eighty two ethnic groups are in favor of federal government structure. Those who want to bring back the old and outdated feudal unitary government structure of “one country, one language, and one religion” are the root cause of all problems.

Those who are longing for the coming back of the bygone era of Atse Menilik and Atse Hileselase failed to understand the objective reality on the ground of 21<sup>st</sup> century socio-economic and political view of 98% of Ethiopian people. The 2% who are creating havoc as individual and/or as an organization do not represent any ethnic group. ‘The Unitarians’ started recruiting individuals and sponsoring organizations from different ethnic groups to propagate their agenda on social media.

Recently, in social media you may come across an individual belong to Harari ethnic group advocating for the coming back of Atse Hailesilase regime extension. Longing for Atse Hileselase regime is totally against the norm of Harari culture and historical background. Harari Regional State administrators who wave ‘weyane’ era flag advocate ‘Beltsgina’ Party (Federal government) political view which does NOT reflect and represent Harari people’s psychological makeup and future vision.

#### **Who represent Harari people?**

Representatives of Harari society are those who embraced past history of Emirate Harar and its indigenous people. Representatives of Harari society are those who feel the pain and suffering of Hararies and condemn invaders of Emirate Harar such as Menilik and Hilesilase. Individuals and organizations that represent and speak on behalf of Harari people are ONLY those who wave the 962 years Harari flag waved by the 86 Amirs of Emirates of Harar (see the picture of the flag on top of this letter).
