

State Request to Share Our Programs

Join Our Team Supporting Youth Wellness!

The Commonwealth of Massachusetts Education Committee has asked us to develop blueprints of our programs to share with other communities to provide needed quality fun focused inclusive recreation supporting physical, social and emotional wellness. The State request resulted from a 2014 initiative by a group of Terriers parents in youth development, mental health, teaching, coaching and management. Responding to reports of decreased play and physical activity with dramatic increases in electronics addiction, youth anxiety, depression, and suicides, they formed a non profit organization dedicated to supporting the physical, social and emotional wellness of youth.

Community Investors develops blueprints of Terriers programs to share with communities, schools and organizations. It's *PowerPlay Project* programs have provided over 11,000 *Positive Impactful Experiences* to Wellesley Middle School students since 2014 through inclusive play in co-ed Flag Football, 3v3 Hoops, Soccer, Dodgeball & Arena WiffleBall powered by Terriers inspired Student Coaching, Leadership, Music and Media programs. A PowerPlay Student Club is developing plans to launch programs at Wellesley High School. A "SuburbanUrban Bridge Initiative" offers pilot programs at an East Boston Middle School, a Roxbury Youth Sports Development organization and an after school program serving Framingham public housing communities.

We are sharing three decades of experience providing children of various ages, gender, backgrounds and ability equal levels of enjoyment playing together. We have a recipe to provide needed organic remedies, truly transformational experiences. Every town, city and school needs these types of programs, and we are on a mission to expand our reach and impact.

We are building a team of individuals to develop needed partnerships with local Universities and Corporate partners to scale. Parents in Child Psychology, Research, Curriculum Development, Training & Quality, Web & Social Media, Music, Film/Video, Organizational Management, Operational Management, Capital Development and Administration, ***inquiries do not require major commitments! If you or interested in any way please let us know!*** We would love to hear from as many of our families as possible. Feedback & comments (written or video) also really help get our message supported. We welcome all to connect with us at Info@TerriersSports.com, Info@CommunityInvestors.net or on our social sites below!
