TNT Customs Rockfest Trail List & Rating

All trails or combinations of trails are approved routes on the Black Hills National Forest "Motor Vehicle Use Map" and require a current "Black Hills National Forest Motorized Trail Permit".

Trail ratings: The rating system is based on a 1-10 scale with 10 being the hardest. **Traction devices are considered limited slip or devices that require wheel speed to engage. A locker does not require wheel speed to engage.** For Rockfest we will be using the following three trail ratings.

- **Difficulty 4:** High Clearance, low range and 4 wheel drive required. Body damage is possible.
- **Difficulty 6:** Minimum 33" tires, 1 locker or 2 traction devices required; Winch advised due to large boulders, steep inclines, body damage is possible
- **Difficulty 8:** Not advisable for novice drivers. Potentially dangerous situations. Maximum ground clearance, skid plates, body armor and lowest gears highly advised. Body damage is likely. 35"+ tires, 2 lockers, and winch are required!
- **Difficulty 9-10+:** Experienced drivers, dangerous situations. Maximum ground clearance, skid plates, body armour and lowest gears highly advised. Body damage expected. 40"+tires, 2 lockers and winch required!

Vehicles with a lower trail rating MAY be allowed on a higher rated trail at the trail leaders discretion. Minimum tire size may be increased for select trails.
