DR. DEE CARROL

PRESIDENT & CEO

Dr. Dee Carroll, is responsible for leading strategy, development, client engagement, contract management, operations, and performance for PWC's Consultant's LLC.

Dr. Carroll has more than 30 years' experience developing best-in-class strategies for program management, recruitment and staffing practices on federal, state, and local contracts requiring specialized candidate skill sets to support customer-centric requirements.

Dr. Carroll understands the intricate details involved with federal contracting and has provided award-winning contracting, consulting and project management services to an array of clients, including: both public and private sector organizations such as the Executive Office of the President, the Washington Headquarters Services, Pepco, CACI International, CALIBRE, Congressional Black Caucus, DC Government, Georgetown University, State of MD, US Patent and Trademark Office, Department of Energy, Department of State, the National Institutes of Health, US Holocaust Memorial Museum, the General Services Administration, and the Smithsonian Institution.

Dr. Carroll holds a Bachelor of Science degree in Psychology from Bethune-Cookman University and a Doctoral degree in Business Administration and Management from Walden University, in addition to several Executive Management courses from the J.L. Kellogg Graduate School of Management.

OUR MISSION

Our Mission:

We consistently create arrangements to address the contingency needs of local, national and international organizations. We offer one-stop services centered around Human Capital and Program Management. A graduate of the 8(a) program, we have successfully provided staffing support services to commercial, government and international sectors since 1989.

Dee Carroll, Ph.D. — Founder

PARTNERING WITH OUR CLIENTS

PWC Consultants LLC, a full-service management consulting firm specializes in the planning, training and implementation of organizational development initiatives. We partner with our clients on program management and staff augmentation efforts to provide a vast array of services including administrative, financial, analytical, and information technology (systems and software) support to clients around the globe,

Additionally, our medical program includes staff and team members with extensive knowledge and experience monitoring and maintaining healthy compliant workplace and living conditions. Our healthcare professionals have written policy, established protocols, and deployed new systems and practices geared toward the reduction and alleviation of morbidity rates and early mortality due to communicable and non-communicable diseases.
